SWINGLE LAWN, TREE & LANDSCAPE CARE ACQUIRES TWO COLORADO BASED LANDSCAPE CARE COMPANIES.

Swingle, a local Colorado based company continues to expand their legendary landscape care and award winning holiday décor services along Colorado's Front Range communities.

Denver, CO – Swingle Lawn, Tree & Landscape Care, today announced two new acquisitions. The acquisition of lawn and tree care customers from Weed Wranglers, Inc., a Denver based company and TimberJax Tree Experts, Inc., a well known Longmont based tree care company.

Both company owners stated, “they had searched for a Colorado based company that provided exceptional customer service with the expertise that their customer’s have come to expect. After carefully considering several options, both companies were excited to announce that Swingle Lawn, Tree & Landscape Care will be providing their former customers with lawn, tree and landscape care services.

Swingle’s recognition for receiving many industry and business ethics awards over the past 61 years was a key factor in the selection process for both company owners. Swingle also offers an expanded service line which will provide their customers with a single point of contact for landscape care and holiday décor needs.”

Since June of 2005, Swingle has acquired nine different Front Range companies that serve a customer base from Castle Rock to Fort Collins. Their newest acquisitions will be supported by the company’s branches located in Denver and Fort Collins.

The goal is to strengthen Swingle’s brand and market position, expanding their legendary landscape care and award winning holiday décor services to a larger customer base along Colorado’s Front Range communities.

“We will focus on retaining both companies’ existing customer base and develop new customer loyalty by offering a host of new services supported by a highly trained team of landscape care experts, holiday décor experts and Swingle’s Customer Care Representatives. We look forward to servicing more Colorado communities as we grow and develop the Swingle brand in these new market segments along Colorado’s Front Range communities”, said Thomas R. Tolkacz, President of Swingle.
